Re: *Chairman Mundell's July 3, 2002 Letter Concerning Sub City Water Company and Sun City West Utility Company (CAP Plan), Docket Nos. W-01656A-98-0577 & SW-o2334A-98-0577*

Dear Chairman Mundell and Commissioner Spitzer:

I have also read the Exceptions and Responses to Exceptions filed in the above-referenced matters and I agree with Chairman Mundell. The issue raised by the Sun City Taxpayers Association related to the allegation that hydrologic responses are being detected as far as four miles down stream of the Agua Fria Recharge Facility blow off structure warrants a limited reopening of the record for the purposes stated in Chairman Mundell's letter.

Although this matter has been pending for some time before the Commission, I believe that it is important to make sure that the decision the Commission makes regarding the use of the CAP allocation needs to be based on the best information available to date and as such support Chairman Mundell's request to pull this matter from the Special Open Meeting currently scheduled for July 11, 2002 so that we can further develop the record.

Sincerely,

Commissioner Jim Irvin
